## PROJECTS

- **Blog Platform API**  
A blog platform where users can write, edit, and delete posts. Users can comment on posts, and there's an admin panel for managing content.
- **Zerodha landing webpage-using HTML and CSS**  
Developed the landing page for a popular broking site using HTML and CSS.
- **To-Do App using React**  
Developed a dynamic to-do webpage using React components, Express, and Node.js runtime. Implemented JWT for secure authentication and authorization. The application allows users to store and manage their to-dos in a database, retrieving them based on specific queries for efficient task management.

## CERTIFICATIONS

- Certified in Data Structures and Algorithms By Apnacollege.edu
- Certified in Web Development By Udemy.

## SKILLS

- JAVA
- Problem Solving
- HTML,CSS,Javascript
- NodeJs,ExpressJS
- React
- DBMS
- Frontend and Backend development
- Concept of OOPS
- Leadership Skills
- Written and Verbal Communication Skills

## ACHIEVEMENTS AND HOBBIES

- Solved 200+ LeetCode Questions
- Participated in Smart India Hackathon-2023(Till round-2)
